SUMMARY

Second-stage Pharmacy student with a strong interest in pharmaceutical sciences and research. A disciplined and curious learner who enjoys understanding how medicines work and how they help patients. Combines pharmacy studies with technical skills in programming and web development. Has experience in scientific writing and contributing to a published research paper. Particularly interested in clinical pharmacy, drug research, and using technology and data to improve healthcare. Known for initiative, leadership, and a genuine enthusiasm for learning and self-improvement. Reliable, responsible, and able to work independently while also contributing effectively within a team.
